Availability: Out Of Stock
Weight: 341.00lb
Dimensions: 29.25in x 33.13in x 77.00in

Price: \$2,349.00

Short Description

Used 29 1/4" Everest Combination Refrigerator Freezer

Description

Everest Refrigeration EBWRFH2 Description

This Everest Refrigeration EBWRFH2 one-section commercial combo refrigerator/freezer provides users with two different cold storage options. Both the refrigerator cabinet and the freezer cabinet have a capacity of 11 cubic feet. The full unit measures 29¹/₄ inches wide by 33¹/₈ inches deep by 77 inches high. It is constructed of stainless steel for durability and resistance to rust and corrosion over time.

The Everest Refrigeration EBWRFH2 one-section commercial combo refrigerator/freezer's refrigeration system is self-contained and bottom mounted. It uses hydrocarbon refrigerant, which is energy efficient and eco-friendly. The refrigerator has a

temperature range of 33 to 54 degrees Fahrenheit, and the freezer has a temperature range of -10 to 54 degrees Fahrenheit. Each of the two separate cabinets can be locked for security.
