

# USED EVEREST EBNR2 2 DOOR REACH IN REFRIGERATOR

**Brand:** EVEREST  
**Product Code:** USED EVEREST EBNR2  
**Availability:** Out Of Stock  
**Weight:** 418.00lb  
**Dimensions:** 39.38in x 33.13in x 77.00in

**Price: \$2,099.00**

## Short Description

USED EVEREST 2 DOOR REACH IN REFRIGERATOR

## Description

## Everest Refrigeration EBNR2 Description

The stainless steel construction of the Everest Refrigeration EBNR2 reach-in refrigerator enables it to resist corrosion, rust, and scratches to ensure a long service life. To protect staff from injuries, the exterior corners are rounded. This unit sits atop four 5-inch swivel casters featuring a locking mechanism on the front set, and the unit is supported by two leg stabilizers. The interior is fitted with six epoxy-coated steel wire shelves that can be adjusted using the stainless steel clips. The interior spans 33 cubic feet and has an open-spaced design with no walls dividing the sections. Overall, this unit measures 39<sup>3</sup>/<sub>8</sub> inches

wide by 33<sup>1</sup>/<sub>8</sub> inches deep by 77 inches high.

The interior of the Everest Refrigeration EBNR2 two-section refrigerator is accessed through two hinged, solid steel doors, which feature recessed handles to provide a sturdy grip. Each door has a pre-installed lock to protect shelf items from being stolen or tampering with. These doors are also equipped with magnetic door gaskets that create a tight seal to maintain cold conditions. This unit relies on R290 hydrocarbon refrigerant to maintain a set temperature holding range between 33 and 54 degrees Fahrenheit.

## **Product Details**

- From the EB series
- 2 sections
- 33-cu.-ft. internal volume
- Reach-in
- Heavy-duty stainless steel interior and exterior
- Rounded exterior corners
- Open interior design
- Galvanized steel top, bottom, and rear
- 2<sup>1</sup>/<sub>2</sub>-in.-thick polyurethane insulation
- 6 epoxy-coated steel wire shelves
- Stainless steel clips
- Silicone-coated, shatterproof LED lighting
- Digital controls with top-mounted LED display
- Overheat protection alarm
- 2 leg stabilizers
- (4) 5-in. swivel casters with locks on front set
- 2,311 BTU capacity

## **2 Solid Hinged Doors**

- Made of heavy-duty stainless steel
- Field-reversible, self-closing design
- Frame heaters prevent moisture build-up
- Magnetic snap-in gaskets
- 2 recessed handles
- Pre-installed door locks

## **Refrigeration System**

- Self-contained and bottom mounted

- R290 hydrocarbon refrigerant
- Temperature holding range: 33-54 degrees F
- Factory preset temperature: 35 degrees F
- Full-length air duct and airflow guard
- Electronically commutated fan motors
- Auto-defrost cycle
- Condensate drain pan
- No external drains or electric heaters
- Auto-reverse condenser fan motor

## Dimensions & Utilities

- Interior: 28<sup>3</sup>/<sub>4</sub> in. D x 58<sup>1</sup>/<sub>8</sub> in. H
- Overall: 39<sup>3</sup>/<sub>8</sub> in. W x 33<sup>1</sup>/<sub>8</sub> in. D x 77 in. H
- 3 A, <sup>1</sup>/<sub>3</sub> HP
- 115 V/60 Hz/1 ph, 9-ft. cord with NEMA 5-15P plug

**INCLUDES 30 DAY WARRANTY FROM  
TEXAS RESTAURANT EQUIPMENT**
